

## L profiles

Romwell L profiles offer ideal protection for sensitive edges and square devices.

Depending on the strain to which they are subject, L profiles can be supplied in diverse paper qualities.

The desired length can be simply broken off at the perforated lines. Fast, practical and with diverse usages. L profiles can be easily combined with other shaped parts, and can also be cemented to formats and stamped parts. L profiles may also be equipped with self-adhesive lines (SAL) on request.

The standard range encompasses several L profile products. Special dimensions are also available in small quantities.

L profiles

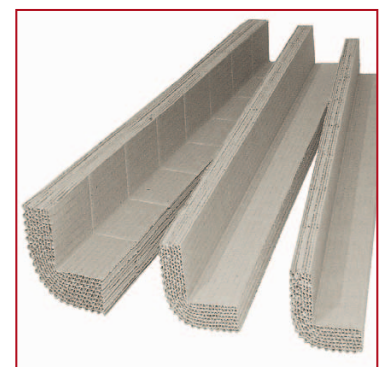

## Usage of L profiles

Square packaged products can be packaged quickly and securely with 4 L profiles – two transversely, two longitudinally.

Romwell L profiles offer reliable protection to sensitive devices.

The desired length can be simply broken off at the perforated lines.

## Technical data of L profiles

	Minimum	Maximum
Side, inner	20 mm	220 mm
